Some Company
Some Address
Some City, Some State, Some ZIP

Dear Mr. Doe,

I am writing to express my interest in the available web developer position at your firm. I am a graduate of the Graphic and Web Design Program at Southwest Wisconsin Technical College and am presently pursuing a B.S. in Computer Science at UW-Platteville.

I feel that I am a very unique candidate for this position and could be a tremendous asset to your company. Web design and development have really become a particular passion of mine. Having been described as a design "unicorn" by my instructors- I am both creative and analytical, with a broad, diverse skillset. My internship at Southwest Tech required me to do everything from updating databases to working with content management systems to designing graphics. Since then, I have profoundly expanded my programming abilities as a Computer Science student. On top of my raw skills, I have vision, as is evidenced by the redesign of Southwest Tech's entire website that I was placed in charge of.

Furthermore, I am a dependable, hard worker who will fully dedicate himself to the job. I grew up on a farm and have been working multiple jobs since I was sixteen years old. I understand the value and importance of hard work and recognize that nothing gets done on its own. I am extremely organized, tidy and have always enjoyed implementing systems and protocols that ensure a job is tackled in the most efficient manner possible. Taking a disordered mess and turning it into a structured methodology that both operates properly and looks aesthetically appealing is pretty much what I was put on this earth today. Simply ask any of my former (or present) employers, and they will surely vouch for everything I am saying.

In light of the many wonderful things I have heard about your company, I would be honored if you considered me for this position. I assure you, sir, that if you were to hire me, I will respect authority, behave punctually and do exactly what is required of me and more. I can promise you, if I am selected for this position, I will fully dedicate myself to making as big an impact on your firm as I possibly can.

Respectfully,

Peter Humphreys
